## LINKS

## EXPERIENCE

### Open Source to Bruno

Currently Working.

- Contributed significantly to "Bruno," an open-source platform akin to Insomnia and Postman.
- Completed three successful pull requests, showcasing ongoing commitment.
- Gained exposure to industry standards and best practices in software development.

### Sanchit Medicine Limited

From: October | 2023 to Current , Moradabad, IND

- Led end-to-end development of a pharmaceutical company's website, making it 2 times faster than the industry norm.
- Leveraged React for frontend development, prioritizing a seamless user experience while ensuring a significant speed boost.

### Gateway Car Rental

From: June | 2023 to Aug | 2023 , Abu Dhabi, UAE

- Showcased proficiency in managing and optimizing data for "Gateway Car Rental."
- Executed deployment processes that resulted in a notable 25% increase in website speed.
- Introduced fresh designs, leading to a substantial 32% boost in overall website traffic.

## PROJECTS

### E-COMMERCE WEBSITE

[Repo](#) | [Live](#)

- Developed a responsive React e-commerce site with a functional cart system.
- Implemented comprehensive e-commerce capabilities using internally sourced data.
- Integrated payment functionality with Stripe for seamless transactions.

### REACT ADMIN DASHBOARD

[Repo](#) | [Live](#)

- Designed a versatile React Admin Dashboard for integration with various applications.
- Supports integration with e-commerce sites, the medical field, and local businesses.
- Features both Dark Mode and Light Mode for user preference.

### YOUTUBE CLONE

[Repo](#) | [Live](#)

- Created a feature-rich React-based YouTube Clone with a live chat and nested comment section.
- Optimized search bar functionality for an enhanced user experience.
- Efficiently managed cache memory using Redux, outperforming Flipkart's API calling efficiency.
